The Magic Eye.
...willing to submit to a trial. Before proceed-
...treatment, and at the urging of Chiostro, we
...ascertain in some degree Fasio's powers. We man-
...ascertain that in fact his gaze (and only his gaze) poss-
...a specific effect, noticeable under certain conditions
...in the case of inanimate objects. We asked him to stare
...several minutes at a particular point on a steel plate, which
...we then placed in the slit-spray chamber after a few hours
...we noticed that the point Fasio had stared at was clearly more
...corrected light, consistently looks at the point where Fasio's
...gaze hit it. To our satisfaction, both results disappeared when
...we interposed between subject and object a glass screen pre-
...viously coated with it. We were further able to ascertain that
...only Fasio's right eye, exercised no measurable action
...With the means at our disposal, we were unable to carry out
...eyes, and like Chiostro's, except in a crude way,
...a special analysis of the Fasio effect except in a few
...has a maximum in the blue, with a wavelength of around 425
...months. Now, it is known that many of those who wish to
...can the evil eye wear blue-tinted lenses, and not dark ones,
...and this can't be a coincidence but must, rather, be the fruit
...of long experience absorbed perhaps unconsciously and then
...handed down from generation to generation, as in the case of
...certain folk remedies.
